SPRING INTO ACTION!

“One Person Can Make a Difference”

Workshop 1 – Using Technology to Make a Difference. This workshop will give you several FREE technology resources. You will learn to engage students’ learning through technology. Information technology may have changed the world, but it hasn’t done nearly enough to help educators make the most of their time and talents. This workshop will offer next-generation solutions and help you to get the information you need-where, when and how you need it. So that you can make better educational technology decisions, students can realize their full potential, and you as a teacher can have more time to connect, to teach and to inspire. Instructor: Nathaniel Moses, Technology Coordinator

Workshop 2 – WOW Them Without Worksheets: Are you looking for innovative and interesting ways to assess your students? Have you looked at the same worksheet one time to many? Do you want to get your students engaged in showing what they know? Then, this is the workshop for you. During the workshop, you will complete several engaging projects that you may take back and implement immediately in your classroom. This is a hands-on workshop so come prepared for fun. Instructor: Sylvia Anthony-McGeachy, Media Specialist

Workshop 3 – Integrating Art into the Classroom. Make your students into illustrators. This workshop will equip you with the tools to make book illustrators out of your reading students. You will make and take several lessons that you can prepare with your students. The lessons are designed to engage the students in the stories you are reading and raise their comprehension level to new heights.

Instructor: Carrie Morningstar, Art Teacher

Workshop 4 – Literacy at the Crossroads: This workshop is learning how to engage reluctant readers through literature circles. Instructor: Nicole Neal, Instructional Coach
